

American Income Life Insurance

[American Income Life \(AIL\)](#) is an insurance company just like any other insurance company with one exception, they specialize in offering insurance to union workers. Many of the individuals that work for AIL are former rank and file union employees themselves, such as our representative Tommy Flynn, who has been a union member for over four decades!

Many members are concerned about how AIL managed to contact them and assume that the WPEA has shared their personal information with AIL. This is not the case. The WPEA does not disclose personal contact information. We contract with AIL, and through this contract we allow AIL to send informational flyers to members at their home addresses a few times a year. This mailing information is never given to AIL. We send a mailing list to a confidential, third-party, clearing house and AIL provides the flyer information to the same clearing house. The clearing house does all the mailing and AIL never sees the information. We use these same types of clearing houses for contract and election voting as well and have done so for decades. They are very safe to use.

In exchange for the ability to send mailers a couple of times a year, AIL provides at no cost to our members, an Accidental Death and Dismemberment policy. They also provide Child Safe kits for your children and grandchildren, and a will service kit; both at no cost to our members.

Some members that have already filled out the AIL beneficiary card for their AD&D policy are contacted directly by AIL. Again, there is some confusion about how AIL obtained member contact information. This is provided directly by the member when you filled out the card. The information is not provided by the WPEA. AIL is, like any other insurance company out there, asking if you are interested in additional insurance products. If you are not interested in other products just say 'no thank you'. Your union status does not obligate you to meet with them about additional insurance products, but we DO recommend having them do a cost analysis for you. They help thousands of other union members every year and may have something that can be of aid to your family!

If you have not yet filled out your beneficiary card, you can do on the AIL website. Once you click [this link](#), you will be taken to a screen that asks for your access code. The WPEA access code is **sgg5b** and after entering this, you need only enter your information and AIL will issue your certificate of coverage, as well as provide you with your Child Safe Kits and the access code needed for the will kit.

The WPEA takes the confidentiality of your personal information seriously. We also want to help in providing benefits and additional security to our members, wherever we can. The Executive Board of the WPEA is happy to be able to provide these additional benefits to our membership through this relationship with American Income Life. As with any topic, if you have additional questions, please reach out to your [District Vice President](#).
